Getting Set Up

1

Install the battery

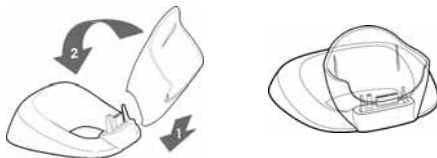

Be sure to charge your battery for several hours on the home stand before use, or until charging complete message appears.

2

Set Up

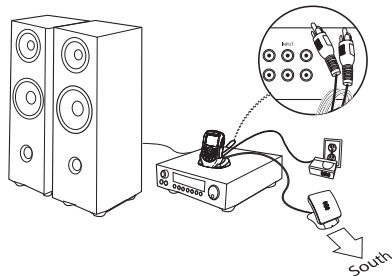

Assemble your Tao xm2go and its home stand as shown.

3

Connecting to a Stereo

Plug the AC adaptor into an outlet. Connect the home antenna and connect the line out to either your home stereo or powered (PC type) speakers.

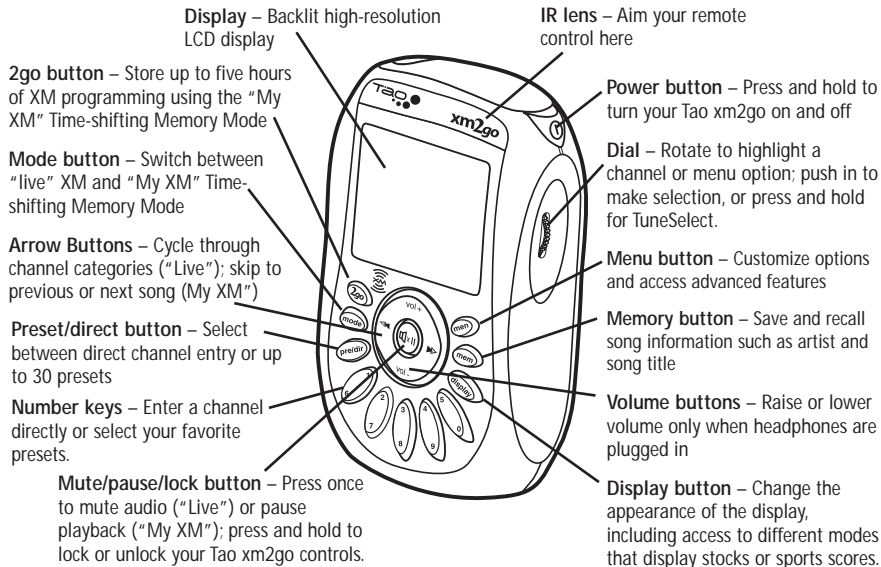

4

Controls

Turn on your Tao xm2go by pressing the power button. You should be able to hear channel 1, the XM Preview Channel, through your ear buds or attached stereo/speakers.

Before you begin, take a moment to familiarize yourself with Tao xm2go's controls. Most basic functions can be accessed using the front panel buttons and the dial. More advanced features are accessed using the "menu" button and the dial.

5

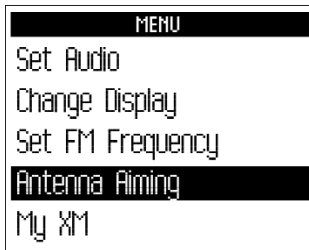

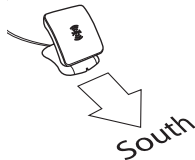

Aiming the home antenna

If you do not hear channel 1, the XM Preview Channel, and the screen displays “NO SIGNAL,” try moving your Tao xm2go’s antenna to another location. Make sure the antenna points south outdoors or through a window.

Complete instructions, including an optional activation setup in a vehicle, the availability of accessories designed to improve your signal reception, and more useful information and tips about your Tao xm2go can be found in your Tao xm2go User Guide.

Your Tao xm2go can help you aim the home antenna to pull in the strongest signal.

1. Using the “**menu**” button and dial, choose “Antenna Aiming.”
2. Slowly turn and tilt the antenna. The signal bars on the display will change. Find the position that gives at least two bars on either “satellite” or “terrestrial.”
3. When you’ve found the best position, press the “menu” button to return to normal operation.

Ready...

Activate and Discover

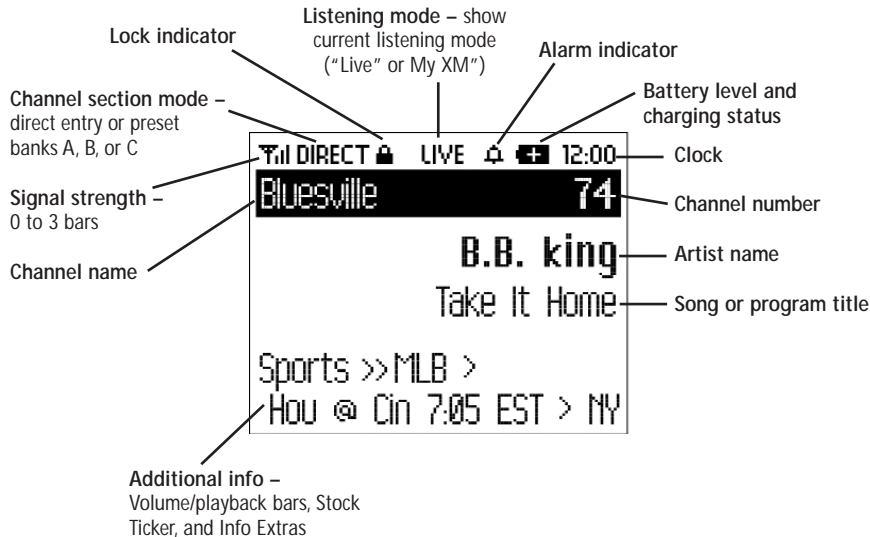

Turn the dial to highlight channel 0, and press the dial into select it. You should see an 8-character XM Radio ID in the display. (The XM Radio ID should also be on your Tao xm2go's package and under the battery.) Write the ID here:

A row of eight empty square boxes, each with a black border, intended for the user to write the 8-character XM Radio ID.

The XM Radio ID does not use the letters I, O, S, and F.

XM subscription required for reception of XM service. Not available in Alaska or Hawaii. Activate your XM Satellite Radio service by contacting XM at <http://activate.xmradio.com> or by calling 1.800.852.XM (9696). You will need the XM Radio ID and a major credit card.

XM will send a signal from the satellites to activate the full channel lineup. Activation normally takes 10 to 15 minutes, but during peak busy periods, you may need to keep your Tao xm2go on for up to an hour to complete the activation process. When you can access the full channel lineup on your Tao xm2go, you're done!

Rotate the dial to preview a list of channels. When you find one you're interested in, press the dial in to tune to that channel!

If you want to tune to a channel and know its channel number, you can use the number keys. Press the "**pre/dir**" button until "DIRECT" flashes in the display. Press the number keys corresponding to the channel number, e.g., "4" followed by "5" for channel 45.

XM's channels are organized into categories such as "Rock," "Country," "News," and "Sports." Press the "[left arrows]" and "[right arrows]" buttons to explore these categories; rotate the dial to view the channels within each category.

My XM Time-shifting Memory Mode Feature

Tao xm2go: Store and Play Back with a Single Button

Your Tao xm2go lets you store up to five hours of programming and play it back at a later time. Listen to XM wherever you are, e.g. subway, or anywhere satellite coverage may be limited. While the battery is charging in the home stand, try storing some XM programming from XM's lineup of over 130 channels!

To store by pressing one button:

1. Turn on your Tao xm2go and select a channel.
2. Press the **"2go"** button. To prevent you from accidentally recording over a previously stored program, your Tao xm2go will ask you to confirm. Press the **"2go"** button again. The center of the top line of your Tao xm2go's screen switches from "LIVE" to "REC."
3. To stop storing and continue with live programming, press the **"2go"** button again. The display reverts to "LIVE" mode.

To play back:

1. Press the "mode" button. Your Tao xm2go switches from "LIVE" to "My XM" and will begin to play back from the beginning or where you last stopped or paused.
2. "My XM" holds up to five hours of programming. Press either the "◀" or "▶" button to skip to the previous or to the next song.
3. You can also rotate the dial to view a list of the stored artists and songs. Simply highlight an artist with the dial, then press the dial in to listen to it.
